

CREATING MOTION

Designing and building equipment that overcomes the architectural barriers and obstacles that prevent people with reduced mobility from moving around freely: this is our corporate mission.

The aim is to create "total quality" in all contexts, from the home to public buildings, whether space is limited or in plentiful supply.

All our products are based on painstaking design work, to guarantee the customer the best solution to access problems in every context, especially where space is at a premium.

We build superior-quality inclined and vertical platform lifts with the aid of outstanding technological know-how and a modern, dynamic vision of the market. Our company consists of a young, highly motivated team that takes the satisfaction of people's needs as its first and only objective.

VEGA

screw driven
open platform lift up to 3 m

+ keybenefits

- + No building works required.**
Thanks to the access ramp always included as standard equipment, no excavation for the platform lift is required. Also no bearing wall is required to fasten the lift.
- + No technical room required.**
No need of housing for external parts: all Vega components, electrical and mechanical, are embedded inside the lift.
- + Easy and fast installation.**
The supplied pre-assembled components make the installation fast and easy.
- + Flexibility.**
Vega can be adapted directly on the installation site as for hinge side of the gates and landing side of the platform lift.

Max load capacity	300 kg
Maximum travel	3000 mm
Platform dimensions	1400x1100 mm
Pit	80 mm or no pit, with standard ramp
Installation	indoors/outdoors
Entrance configuration	open through or adjacent
Drive	electrical screw driven
Electrical consumption	2,2 kW

PERFECT FOR
OUTDOOR
INSTALLATION

(*) Depending on the maximum travel to run, Vega is available in 5 versions: Vega1000, Vega1500, Vega2000, Vega2500, Vega3000.
